

# ROCM Navigator: System Audit & Security Report

Session ID: test\_session\_xyz | Scanned At: 2026-07-09T13:13:26.317491

## 1. Executive Summary & Safety Score Breakdown

| Dimension                              | Score Weight |
|----------------------------------------|--------------|
| Dependency Pinning & Version Integrity | 18/20        |
| Secrets & Credential Exposure          | 0/30         |
| Authentication Flow & Access Rules     | 20/20        |
| Execution Container Sandboxing         | 15/15        |
| Memory Boundaries & Static Checking    | 15/15        |
| Combined System Safety Score           | 68/100       |

## 2. Secrets & Credentials Scan Result

| File                                                       | Line | Type                       | Pattern (Scrubbed) | Severity |
|------------------------------------------------------------|------|----------------------------|--------------------|----------|
| .env                                                       | 2    | JWT Token                  | eyJh***M1Cs        | HIGH     |
| .env                                                       | 3    | Database Connection String | gost***CH5@        | HIGH     |
| .github/workflows/security_ci.yml                          | 340  | High-Entropy String        | 'fir***026'        | HIGH     |
| .github/workflows/security_ci.yml                          | 378  | High-Entropy String        | "===***==="        | HIGH     |
| .github/workflows/security_ci.yml                          | 380  | High-Entropy String        | "===***==="        | HIGH     |
| .github/workflows/security_ci.yml                          | 388  | High-Entropy String        | "===***==="        | HIGH     |
| reports/audit_report_test_session_xyz_20260709_105607.json | 153  | High-Entropy String        | "aud***607"        | HIGH     |
| reports/audit_report_test_session_xyz_20260709_105634.json | 160  | High-Entropy String        | "aud***634"        | HIGH     |
| reports/audit_report_test_session_xyz_20260709_110925.json | 167  | High-Entropy String        | "aud***925"        | HIGH     |
| reports/audit_report_test_session_xyz_20260709_113615.json | 174  | High-Entropy String        | "aud***615"        | HIGH     |

|                                                            |     |                            |             |          |
|------------------------------------------------------------|-----|----------------------------|-------------|----------|
| reports/audit_report_test_session_xyz_20260709_125835.json | 195 | High-Entropy String        | "aud***835" | HIGH     |
| reports/audit_report_test_session_xyz_20260709_125847.json | 202 | High-Entropy String        | "aud***847" | HIGH     |
| tests/test_security_reporting.py                           | 64  | OpenAI API Key             | sk-a***z111 | CRITICAL |
| tests/test_security_reporting.py                           | 64  | Generic Token/Key          | API_***111" | HIGH     |
| tests/test_security_reporting.py                           | 65  | AWS Access Key ID          | AKIA***1234 | CRITICAL |
| tests/test_security_reporting.py                           | 243 | High-Entropy String        | "sk-***ear" | HIGH     |
| tests/test_security_reporting.py                           | 922 | Database Connection String | gost***ass@ | HIGH     |
| tests/test_security_reporting.py                           | 934 | Database Connection String | gost***ass@ | HIGH     |

### 3. Memory Boundaries & Static Check Results

**No memory violations detected:** Source modules comply with static memory copy and array bounds limits.

### 4. Container Sandbox Security Scan Result

**No container issues detected:** Dockerfiles checked comply with secure sandboxing setups.

### 5. Software Bill of Materials (SBOM)

| Package        | Version | Package Source                    | License          |
|----------------|---------|-----------------------------------|------------------|
| fastapi        | 0.111.0 | pip                               | MIT              |
| uvicorn        | 0.30.1  | pip                               | MIT / Apache-2.0 |
| pydantic       | 2.7.0   | pip                               | MIT / Apache-2.0 |
| cryptography   | 42.0.8  | pip                               | MIT / Apache-2.0 |
| reportlab      | 4.2.2   | pip                               | BSD              |
| requests       | 2.32.3  | pip                               | MIT / Apache-2.0 |
| pytest         | 8.2.2   | pip                               | MIT / Apache-2.0 |
| pytest-asyncio | 0.23.7  | pip                               | MIT / Apache-2.0 |
| httpx          | 0.27.0  | # Required by FastAPI Test Client | MIT / Apache-2.0 |
| flake8         | 7.1.0   | pip                               | MIT / Apache-2.0 |
